

Development is a continuous process. Keeping this in mind the college takes feedback from all stakeholders e.g. Students, faculty, staff, alumni, management and society). The feedback provides us to analyse the positives and negatives of the college system for better environment of learning, teaching and research for the students as well as the faculty members. Most of the students are satisfied with the teaching and other co-curricular activities. There is continuous internal evaluation process. The teaching and mentoring process of the college facilitates in cognitive social and emotional growth. The institution makes continuous efforts to improve the college system as a whole for the betterment of students. Different departments took their students for fields' trip in the session 2019-20. Better facilities of electricity, drinking water, cleanliness of the college were mainly the suggestions given by the students. There are 3 generators of 40 KW and inverters backup in all departments in the college for power.
